ISBI 2008

Committees & Reviewers

Organizing Committee

General Chair

Jean-Christophe Olivo-Marin
Institut Pasteur, Paris, France

Special Sessions

Josiane Zerubia
INRIA, Sophia-Antipolis, France

Wiro Niessen
Erasmus Medical Ctr, Rotterdam, The Netherlands

Plenaries

Christian Roux
ENST Bretagne, Brest, France

Tutorials

Michael Unser
EPFL, Lausanne, Switzerland

Publications

Habib Benali
Inserm, Paris, France

Local Arrangements

Séverine Dubuisson
Univ. Pierre et Marie Curie, Paris, France

Vannary Meas-Yedid
Institut Pasteur, Paris, France

Venue

Program Chairs

Isabelle Bloch
Telecom-ParisTech, Paris, France

Andrew Laine
Columbia University, NYC, USA

Finances

Elsa Angelini
Telecom-ParisTech, Paris, France

Industrial Liaison

Spencer Shorte
Institut Pasteur, Paris, France

Nicholas Ayache
INRIA, Sophia-Antipolis, France

Institutional Liaison

Claude Boccara
ESPCI, Paris, France

Technical Liaison

Sébastian Ourselin
University College London, UK

American Liaison

Jeff Fessler
University of Michigan, Ann Arbor, USA

Marriott Rive Gauche
Paris, France

Steering Committee

Chair

Michael Unser, EPFL

Voting Members

Engineering in Medicine and Biology Society Representatives

Atam Dhawan
Jeffrey Fessler
Andrew Laine

Signal Processing Society Representatives

Dana Brooks
Jelena Kovacevic
Erik Meijering

Non-voting Members

Mercy Kowalczyk, SPS Executive Director
Laura Wolf, EMBS Executive Director

Reviewers

Til Aach, RWTH Aachen University, Germany
Purang Abolmaesumi, Queen's University, Canada
Scott Acton, University of Virginia, United States
Tulay Adali, University of Maryland Baltimore County, United States
Dan Adam, Technion - Israel Institute of Technology, Israel
François Aguet, Ecole Polytechnique Fédérale de Lausanne, Switzerland
Elsa Angelini, Télécom Paris, France
Sylvain Baillet, Cognitive Neuroscience & Brain Imaging Lab., CNRS UPR 640, Hôpital de la Salpêtrière, France
Pascal Bamford, MonoGen, Inc., United States
Peter Bandettini, National Institute of Mental Health, United States
Eric Bardinet, CNRS UPR640 LENA, France
Kenneth E. Barner, University of Delaware, United States

Alberto Bartesaghi, National Institutes of Health, United States
Freek Beekman, Delft University of Technology, Netherlands
Laure Blanc-Feraud, CNRS, France
Isabelle Bloch, ENST, France
Johan G. Bosch, Erasmus Medical Center, Netherlands
Charles A. Bouman, Purdue University, United States
Yoram Bresler, Unversity of Illinois at Urbana-Champaign, United States
Dana H. Brooks, Northeastern University, United States
Irène Buvat, U678 Inserm, France
Paul Carson, University of Michigan, United States
Richard Carson, Yale University, United States
Raymond C. Chan, Philips Research North America, United States
Hsun-Hsien Chang, Harvard Medical School, United States
Arion Chatziioannou, University of California, Los Angeles, United States
Gary Christensen, The University of Iowa, United States
Kevin Cleary, Georgetown University Medical Center, United States
Jean-Louis Coatrieux, LTSi-Inserm, France
Zohara Cohen, National Institute of Biomedical Imaging and Bioengineering, United States
Tim Cootes, The University of Manchester, United Kingdom
Per-Erik Danielsson, Linkoping University, Sweden
Gaudenz Danuser, The Scripps Research Institute, United States
Benoit Dawant, Vanderbilt University, United States
Jan de Munck, VU University Medical Center (VUMC), Netherlands
Herve Delingette, INRIA, France
Silvana Dellepiane, Università degli Studi di Genova, Italy
Thomas S. Denney Jr., ECE Department, Auburn University, United States
Rachid Deriche, INRIA Sophia Antipolis - Méditerranée, France
Thomas Deserno (geb. Lehmann), Aachen University of Technology, Germany
Atam Dhawan, New Jersy Institute of Technology, United States
Jouke Dijkstra, Leiden University Medical Center, Netherlands
Qi Duan, New York University, United States
Severine Dubuisson, Laboratoire d'Informatique de Paris 6, France
Emad S. Ebbini, University of Minnesota, United States
Daniel Elgort, Philips Research, NA, United States
Randy Ellis, Queen's University, Canada
Alexandre Falcão, State University of Campinas, Brazil
Adel Faridani, Oregon State University, United States
Baowei Fei, Case Western Reserve University, United States
Aaron Fenster, Robarts Research Institute, Canada
Jeff Fessler, University of Michigan, United States
Denis Friboulet, Creatis, UMR CNRS 5515, U 630 INSERM, France
Karl Fritscher, University for Health Sciences, Medical Informatics and Technology, Austria
Gareth Funka-Lea, Siemens Corporate Research, United States
Mireille Garreau, LTSI - U642 INSERM - University of Rennes, France
Marios Gavrielides, U.S. Food and Drug Administration, Division of Imaging and Applied Mathematics, United States
James Gee, University of Pennsylvania, United States
Sennay Ghebreab, University of Amsterdam, Netherlands

Maryellen Giger, University of Chicago, United States
Stephen Glick, University of Massachusetts Medical School, United States
Daniel Goldberg-Zimring, Brigham and Women's Hospital, Harvard Medical School, United States
Arthur A. Goshtasby, Wright State University, United States
Grant Gullberg, Lawrence Berkeley National Laboratory, United States
Metin Gurcan, The Ohio State University, United States
Lubomir Hadjiiski, University of Michigan, United States
Nobuhiko Hata, Brigham and Women's Hospital and Harvard Medical School, United States
David Hawkes, University College London, United Kingdom
Peter Heinlein, Image Diagnost International GmbH, Germany
Pierre Hellier, IRISA, INRIA, INSERM, France
Andreas HIELSCHER, Columbia University, United States
Elizabeth Hillman, Columbia University, United States
Jiang Hsieh, GE Healthcare Technologies, United States
Edward Hsu, University of Utah, United States
Brian Hutton, University College London, United Kingdom
Mathews Jacob, University of Rochester, United States
Tianzi Jiang, Institiute of Automation, Chinese Academy of Sciences, China
Amit Joshi, Baylor College of Medicine, United States
Edmond Kahn, INSERM U678 / UMR-S Université Pierre et Marie Curie, France
Zvi Kam, Weizmann Institute of Science, Israel
William Clem Karl, Boston University, United States
Ron Kikinis, Surgical Planning Lab, Brigham and Womens Hospital, Harvard Medical School, United States
Paul Kinahan, University of Washington, United States
Jelena Kovacevic, Carnegie Mellon University, United States
Michal Kozubek, Masaryk University, Czech Republic
Frithjof Kruggel, University of California, Irvine, United States
Jan Kybic, Czech Technical University, Czech Republic
Richard Leahy, University of Southern California, United States
Maria J. Ledesma-Carbayo, Universidad Politecnica de Madrid, Spain
Noah Lee, Columbia University, United States
Boudewijn Lelieveldt, Leiden University Medical Center, Netherlands
Alex Leow, Neuropsychiatric Hospital, University of California, Los Angeles, United States
Huai Li, National Institute on Aging, United States
Zhi-Pei Liang, University of Illinois, Urbana-Champaign, United States
Michael Liebling, University of California Santa Barbara, United States
Marius George Linguraru, National Institutes of Health, United States
Huafeng Liu, Zhejiang University, China
Frederik Maes, Katholieke Universiteit Leuven, Belgium
Vincent Magnotta, The University of Iowa, United States
Gregoire Malandain, INRIA, France
Jean-Francois Mangin, CEA, France
B. S. Manjunath, UCSB, United States
Vannary Meas-Yedid, Institut Pasteur, Unité d'Analyse d'Images Quantitative, France
Erik Meijering, Erasmus MC - University Medical Center Rotterdam, Netherlands
Olivier Meste, Lab. I3S, University of Nice-Sophia Antipolis, France

Dimitris Metaxas, Rutgers University, United States
Torsten Möller, Simon Fraser University, Canada
Maria Arrate Muñoz Barrutia, Foundation for Applied Medical Research, Spain
Robert Murphy, Carnegie Mellon University, United States
Tim W Nattkemper, Applied Neuroinformatics, Faculy of Technology, Bielefeld University, Germany
Nassir Navab, Computer Aided Medical Procedures (CAMP), TUM, Germnay, Germany
Krishna Nayak, University of Southern California, United States
Arye Nehorai, Washington University in St Louis, United States
Wiro Niessen, Erasmus MC, University Medical Center Rotterdam, Netherlands
Kathy Nightingale, Duke University, United States
Alison Noble, University of Oxford, United Kingdom
Johan Nuyts, Katholieke Universiteit Leuven, Belgium
Jean-Christophe Olivo-Marin, Pasteur Institut, France
Carlos Oritz de Solorzanoo, Center for Applied Medical Research, Spain
Sebastien Ourselin, University College London, United Kingdom
Dirk Padfield, General Electric Global Research, United States
Xiaochuan Pan, The University of Chicago, United States
Mélanie Pélégrini-Issac, Inserm U678 and Université Pierre et Marie Curie, France
Xavier Pennec, INRIA, France
Franjo Pernus, University of Ljubljana, Slovenia
Nicholas Petrick, U.S. Food and Drug Administration, United States
Françoise Peyrin, CREATIS-LRMN, CNRS 5220,INSERM U630, Lyon, France
Steve Pieper, Isomics, Inc., United States
Josien Pluim, University Medical Center Utrecht, Netherlands
Ming Jack Po, Columbia University, United States
Mithun Prasad, Rensselaer Polytechnic Institute, United States
Jeffrey Price, Burnham Institute for Medical Research, United States
Sylvain Prima, IRISA/INRIA, France
Jerry Prince, Johns Hopkins University, United States
Jinyi Qi, University of California, Davis, United States
Nasir Rajpoot, University of Warwick, United Kingdom
Stanley Reeves, Auburn University, United States
Joseph Reinhardt, University of Iowa, United States
Cyril Riddell, GE Healthcare, France
Gustavo Rohde, Carnegie Mellon University, United States
Karl Rohr, University of Heidelberg, DKFZ Heidelberg, Germany
Daniel Rueckert, Imperial College London, United Kingdom
Ziad Saad, Scientific and Statistical Computing Core, National Institute of Mental Health, National Institutes of Health, United States
Punam Saha, University of Iowa, United States
Paul Sajda, Columbia University, United States
Guillermo Sapiro, University of Minnesota, United States
Julia A. Schnabel, University of Oxford, United Kingdom
Steven Schreiner, Western New England College, United States
Lotfi Senhadji, LTSI, Université de Rennes 1 ; INSERM, France
Shishir Shah, University f Houston, United States
Pengcheng Shi, Rochester Institute of Technology, United States

Yonggang Shi, Laboratory of Neuro Imaging, UCLA, United States
Kirk Shung, University of Southern California, United States
Siddhartha Sikdar, George Mason University, United States
Arkadiusz Sitek, Brigham and Women's Hospital and Harvard Medical School, United States
Ting Song, General Electric, United States
Lawrence Staib, Yale University, United States
Colin Studholme, University of California San Francisco, United States
Martin Styner, University of North Carolina, United States
Ronald Summers, National Institutes of Health, United States
Ioan Tabus, Tampere University of Technology, Finland
Russell Taylor, Johns Hopkins University, United States
Demetri Terzopoulos, University of California, Los Angeles, United States
Philippe Thévenaz, École polytechnique fédérale de Lausanne (EPFL), Switzerland
Jean-Philippe Thiran, Ecole Polytechnique Fédérale de Lausanne, Switzerland
Andrew Todd-Pokropek, University College London, United Kingdom
Jocelyne Troccaz, TIMC Lab, France
Benjamin Tsui, Johns Hopkins University, United States
Jayaram Udupa, University of Pennsylvania, United States
Michael Unser, EPFL, Switzerland
Dimitri Van De Ville, Ecole Polytechnique Fédérale de Lausanne, Switzerland
Koen Van Leemput, Massachusetts General Hospital / Massachusetts Institute of Technology, United States
Theo Van Walsum, Erasmus MC -- University Medical Center Rotterdam, Netherlands
Jean-Marc Vesin, Swiss Federal Institute of Technology, Lausanne, Switzerland
Cedric Vonesch, Ecole Polytechnique Fédérale de Lausanne (EPFL), Switzerland
Andreas Wahle, The University of Iowa, United States
Yue Wang, Virginia Polytechnic Institute and State University, United States
Z. Jane Wang, UBC, Canada
Simon Warfield, Harvard Medical School, United States
Miles Wernick, Illinois Institute of Technology, United States
Ross Whitaker, University of Utah, United States
David Wilson, Case Western Reserve University, United States
Ed X. Wu, The University of Hong Kong, Hong Kong SAR of China
Sheng Xu, Philips Research North America, United States
Jianhua Yao, the National Institutes of Health, United States
Jong Chul Ye, Korea Advanced Inst. of Science and Technology (KAIST), Republic of Korea
Alistair Young, University of Auckland, New Zealand
Josiane Zerubia, INRIA, France
Yantian Zhang, NIBIB/NIH, United States
Christophe Zimmer, Institut Pasteur, France
